

August 2018 – Two Frequently Asked Questions

Today I'd like to share with you a little of what happens during Section 3 and answer some commonly asked questions about the LIVE Teleseminar Series.

This is when things really begin to pop because by the end of the two-hour conference call for Section 3, participants are already accessing their personal Records. I love facilitating this LIVE Teleseminar SERIES because the Records of the Akashic Records Integration Process have constructed a very gentle and progressive process to introduce learners to their personal Records. It happens so easily that by the time they actually do come to open their Records, everything falls right into place. It's fun to watch!

Question 1: Sometimes people wonder if they have the ability to open their Records.

"Do I have to be psychic?"

"I'm usually not even very intuitive unless I get lucky once and a while."

Well, no - you don't have to be psychic or intuitive to learn the Akashic Alliance Method to Open your personal Records. It certainly augments whatever abilities you might have, (Reiki, other forms of healing, any consulting work, channeled writing, etc.) but it is not a requirement. I'm certainly NOT psychic, but I can definitely say that my intuition has greatly improved from working in the Records. To open personal Records, students do need to be able to read, to focus, and to follow some basic steps.

Did you ever take music lessons or learn a new sport? If so, you probably remember that when you first started you felt very awkward and you probably made some mistakes. But if you stuck to it and kept practicing, in a short time you could play a recognizable tune or catch that ball. Working in the Records is similar - it is a skill that you develop by practicing - preferably for a short time every day.

Question 2: Another question I often hear is:

"Do I have to have an extensive knowledge of the Akashic Records?"

"I'm not even sure that I know what they are, but there is something in those two words that keeps drawing me."

You might have read all the books about the Akashic Field or you might have read none. Knowledge of what others have written about the Akashic Records, while sometimes useful, can also cause some confusion. So it's up to you what you choose to read. What is important is your strong desire to access your personal Records. I truly believe this is a soul calling and that when you respond to it and if you use this wonderful tool on a regular basis, your life will never be the same again.

One of the many reasons I so enjoy facilitating these LIVE Teleseminar Series is that as part of my preparation, I open the Records of the group of people who constitute that particular Module A. Once I have the group's Records open, I ask the Records for the **Integration Processes (exercises)** for each step of the upcoming LIVE Teleseminar Series that would be the best ones for this group - the ones that will allow them to learn and process this method quickly and easily.

So in other words, the Records have the opportunity to fine tune exactly what every group needs in order to progress through their learning process. It's always fascinating for me to see what the Records come up with for different groups. When occasionally I've thought what I received was kind of mundane, it always turned out to be an Integration Process that was really profound for that group. This is why we have the Records constructing the exercises and not me! ☺ They can do it SO much better.

During the eight sections of the LIVE Teleseminar Series, learners read portions from their comprehensive downloadable Manual, walk through all the preparation work step-by-step, have time to share and ask questions, and access, explore, and close their Records several times.

Radiance and Love, Till Next Time . . .
