

## July 30, 2008: **What You Can Accomplish with Your Records**

Dear Prospective Akashic Learner:

You might like to consider what your life could be like if you could access your own Akashic Records whenever you wanted in order to:

- Find out information that is true for you without needing to ask someone else.
- Discover and clear challenges so you can stop repeating old patterns and move on with your life.
- Expand your creative abilities – writing, art, music, etc.
- Receive practical assistance when attending medical or legal appointments, so you'll ask just the right questions and retain all that you need.
- Receive healing on all the levels of your Being – physically, emotionally, mentally, and spiritually.
- Experience the unconditional love and healing from the Divine that is always waiting for you in the Records whenever you ask.

Please note, there is a standard, comprehensive 20 + page Module A manual (now grown to 60+ pages!) which all participants receive at the beginning of the training. However, I actually teach each group with the direction and guidance of the Records of each particular group of participants. Therefore, each Module A is different and unique. Refresher grads are most welcome to repeat Module A for a reduced fee.

Because I ensure a small class size of a maximum of 8 learners, you will have plenty of time to ask any questions you may have as we progress through the training. If you have any questions about Module A please email me – see footer

### **Testimonial:**

*"I just had to let you know how well things are going with my Akashic Records. Sometimes I only open for a few minutes at bedtime, but I no longer wonder IF I'm in my Records. With only a few weeks of building the pathway and the confidence, I now know that I am in my Records. And it has carried over into the rest of my life, so that when I intend a connection or communication with any aspect of Spirit, I now know that the connection is there. It's an amazing feeling. I find it so much easier now to center, to ground, to connect with my heart space. Thank you, THANK you for sharing the Akashic Records with me!"*
